

Ecureuil AS 355

Light twin-engine helicopter with exceptional performance and is particularly economical purchase and the management, good for crowded areas of operations which take off from high places, aerial work in the mountains and cities, working on power lines. Also excellent corporate transport thanks to the beautiful and comfortable cabin, great for short-term transfers.

Specifications:

- Cruising speed 278 km/h
- Autonomy 731 km
- Seats 5
