

Piaggio Avanti P180

This turbo prop offers the speed, the comfort and tranquility of a light jet and the cabin space of a super-light jet. Its excellent performance makes it accessible for a small airport and provides non-stop flights between any major European city. Its cabin 4.55 m long and 1.75 m high is larger than most of its competitors in the light jet segment

Specifications:

- Cruising speed 644 km /h
- Range 2,795 km
- Seats 6/7
