

# Bombardier Lear Jet 60XR

It was launched in 2007 and is an improved version of the Learjet 60. Thanks to its new turbofan, it is one of the fastest mid size jet on the market. Security issues have been improved, with a new cockpit and avionics suite. The cab has been redesigned with a new layout, a toilet and a new more spacious cabin management system: LED lighting, doors, MP3, LCD control panel

## Specifications:

- Cruising speed 778 km /h
- Range 4,380 km
- Seats 8/9
